## EDUCATION

**University of Alberta, Edmonton, AB (GPA 3.5)**  
*BSc with Specialization in Software Practice (4th year)*

SEPTEMBER 2018 - CURRENT

- Relevant Coursework:
  - Software Process and Product Management (Python/Django/React)
  - Web Applications and Architecture (HTML/CSS/Javascript)
  - File and Database Management (SQL)
  - Intro to Software Engineering (Java/Android)

## PROJECTS

**Converse and Cook App (Fall 2021) — Web/Mobile Application**

- Developed with Django and React as a team of five
- Designed a web application for the Converse and Cook non-profit organization to centralize all of their needs in one spot.
- Demo <https://www.youtube.com/watch?v=RK6-O9bmFcE&>
- Automated frontend testing with selenium

**Booksies (Fall 2020) — Android App**

<https://github.com/CMPUT301F20T03/OneInfiniteLoop>

- Developed with Java in Android Studio as a team of six
- Designed to allow users to list and share their own books with others using a cloud firestore database.
- Automated frontend testing with Robotium

**Fitness Tracker (Fall 2021) — Web Application**

<https://github.com/JackyH56/FitnessApp>

- Developed with Python and Django
- Built a simple web application during a hackathon that logs a user's reps and sets during a workout.
